Cessnock City Council provides a diverse range of services and facilities for the residents and visitors of the local government area. Cessnock City Council comprises of 3 Directorates;

- Works and Infrastructure
- Planning and Environment
- Corporate and Community Services

ORGANISATIONAL CONTEXT OF POSITION

The Planning and Environment Directorate manages services associated with the following functions within Cessnock City Council:

- Business Support and Customer Relations
- Development Services
- Health and Building
- Strategic Planning

The Health and Building Unit is primary responsible for the compliance and education of Councils Health, Environment, Building and Ranger functions within the community.

WORKPLACE HEALTH & SAFETY

The Responsibilities, Authorities and Accountabilities (RAA's) applicable to this position is Level 6.

For specific WHS Responsibilities, Authorities and Accountabilities applicable to this position, refer to the WSH RAA Handbook.

The person accepting this position is required to read and comply with the RAA's applicable to this position.

PRIMARY OBJECTIVE

The primary objective of this position is to provide effective and efficient services to reduce risks to both public health and the environment. This incorporates conducting inspections as identified by the approved regulatory inspection program; administration and enforcement of related legislation; and, implementation of Council's On-Site Sewage Management Strategy.

KEY ACCOUNTABILITIES

1. Provide statutory services relating to the regulatory premises program including the inspection of food premises, skin penetration premises, hairdressers/beauticians, cooling towers/warm water systems, shared/tourist accommodation, public swimming pools/spas and Underground Petroleum Storage Systems.
2. Provide statutory services relating to on-site sewage management as prescribed by the *Local Government Act 1993* and Council's On-Site Sewage Management Strategy including the inspection of on-site sewage management systems (OSSMS).
3. Investigate, manage and resolve public health, environmental and stormwater complaints (CRMs) within required timeframes through the judicious application of Orders, Notices and Directions as appropriate to relevant legislation.
4. Provide high quality technical advice to Town Planning and Building services through the timely completion of development application referrals relating to onsite wastewater management, regulated premises fixtures and fit out, noise, odour and the protection of the environment.
5. Consider and determine applications for approval under section 68 of the *Local Government Act 1993* relating to the installation, construction or alteration of a waste treatment device and operating a system of sewage management.
6. Assist the Environmental Health Team Leader to meet operational performance standards with regard to CRM response; regulatory premises & OSSMS inspection rates; timely completion of Development Application referrals; and, assessment and determination of *Local Government Act* applications.
7. Guide and instruct the Trainee Environmental Health Officer in the conduct of their duties to support their professional development.
8. Assist the Environmental Health Team Leader with the development, promotion and delivery of regulated businesses and community education initiatives.
9. Provide advice to the Environmental Health Team Leader when legal action is required and as necessary prepare evidence and represent Council at the Land and Environment Court or local courts.
10. Respond to pollution incidents and take necessary action to mitigate/minimise environmental harm and where Council is the Appropriate Regulatory Authority (ARA) take responsibility for the incident.
11. Liaise with, and provide professional and technical assistance and advice to a variety of stakeholders including Council staff, consultants, residents, State Government Departments and agencies.
12. Actively participate in continuous improvement of systems, procedures, policies, organisational culture and cross organisational relationships.
13. Keep up to date with industry and legislative developments relating to environmental health issues.
14. Any other accountabilities or duties as directed which are within the employee's skills, competence and training.

POSITION SELECTION CRITERIA

Essential

1. Degree or Postgraduate tertiary qualifications in Environmental Health accredited by Environmental Health Australia or qualifications and experience that are substantially equivalent and appropriate to undertake the role of Environmental Health Officer.
2. Demonstrated knowledge and experience applying relevant legislation to undertake the key accountabilities of an Environmental Health Officer
3. Possess highly developed written and verbal communications skills including the ability to communicate with a range of stakeholders, both internal and external.
4. Demonstrated highly developed negotiation and conflict resolution skills
5. Proven ability to employ good judgement and effectively utilise discretion in a regulatory environment.
6. Demonstrated ability to prioritise workload and work effectively in a team environment
7. Class C Drivers Licence
