

## Position Description

### Associate Surveyor

<b>Position Title</b>	Associate Surveyor	<b>Role ID</b>	DSASU1
<b>Division</b>	Engineering	<b>Unit</b>	Infrastructure Delivery
<b>Job Grade</b>	6	<b>Award</b>	35
<b>Reports To</b>	Senior Registered Surveyor		
<b>Revised/Created</b>	January 2020 – Template updated		

### Primary Objective

---

- Perform surveying at an advanced level to deliver spatial products for all divisions of Council
- Exercise initiative to solve field problems independently and in an efficient, timely and effective manner.

### Values Statement

---

#### What We Value

Living and loving the Tweed.

We look after people and places, explore all opportunities and are proud of our passionate approach.

We care about each other, choose to be here, and are in this together.

We have conversations where everyone can contribute and we are willing to have a go.

We put back in to make a difference, so that our Tweed community is even better tomorrow than it is today.

### Organisational Environment

---

#### ENGINEERING

The Engineering Division provides roads, footpath and cycleway, stormwater, flood mitigation, water supply and wastewater services to the Tweed community and is responsible for the planning, design, construction, operations and maintenance of the associated infrastructure.

## Position Description

### Associate Surveyor

#### Infrastructure Delivery Unit

The Infrastructure Delivery Unit is one of four within the Division and is responsible for the efficient and effective delivery via day labour construction or external contract of infrastructure and other projects. To achieve this, the Unit provides survey, design, construction expertise and resources plus contract document preparation, supervision, administration and procurement advice to the organisation. The Unit includes Council's PMO which champions best practice project management across the organisation.

The Unit also manages Council's remaining operational and non-operational quarries.

As the Tweed Shire is a rapidly growing area, the demand for new infrastructure is high. Efficient provision of this infrastructure must be balanced against the environmental concerns that accompany an area that is geographically and ecologically unique.

The work environment is busy, responsive to customer demands and requires regular adjustment of priorities and activities.

Council is committed to the principles of ecological sustainability in all operations and responsibilities.

#### The Position

---

The position provide specialised surveying services involving cadastral, engineering, topographic and GNSS surveys at an advanced level for all divisions of Council.

It is essential that the incumbent possess advanced practical and theoretical knowledge of modern survey equipment with thorough understanding of contemporary field and office survey procedures.

The position requires the occupant to manage multiple survey projects simultaneously with minimal input from Council's Registered Surveyor. Survey projects for the position are allocated by Council's Senior Registered Surveyor. The position uses Council's Record Management System to comply with organisational requirements for document registration and management.

The position has a particular responsibility to ensure that survey projects are undertaken to the appropriate level of precision and in accordance with accepted policies, standards and guidelines. The position will be responsible for making independent decisions and requires the use of technical judgement to determine satisfactory outcomes.

The position is required to perform any other duties as directed by your Supervisor (within broad scope of job grade, skills and training).

#### The work of the position includes, but is not limited to, the following:

Key Responsibility Areas	Associated Key Duties
1. Survey	<ul style="list-style-type: none"><li>Interpret survey brief, research spatial data and determine necessary project resources.</li></ul>

## Position Description

### Associate Surveyor

	<ul style="list-style-type: none"><li>• Perform cadastral surveys as directed by Council's Senior Registered Surveyor.</li><li>• Perform GNSS surveys, static and RTK, and process/reduce data.</li><li>• Perform engineering and topographic surveys.</li><li>• Manage multiple survey project tasks simultaneously.</li><li>• Provide specialised survey services to satisfy all project survey requirements.</li><li>• Ability to independently resolve survey problems in the field.</li><li>• Innovation required to maximise efficiency of operations within area of responsibility.</li></ul>
2. Communication	<ul style="list-style-type: none"><li>• Possess good communication skills, both written and oral.</li><li>• Provide senior officers with information in relation to technical matters.</li><li>• Liaise with other units within Council in relation to project survey issues.</li><li>• Liaise with Statutory Authorities to obtain relevant survey information required for the completion of projects.</li><li>• Employ tact when dealing with members of the public on site.</li></ul>
3. Quality Control	<ul style="list-style-type: none"><li>• Quality assure all executed works within area of responsibility.</li><li>• Ensure survey data output meets precision requirements for project.</li></ul>
4. Record Management	<ul style="list-style-type: none"><li>• Maintain accurate records of field survey data to satisfy legislative requirements.</li><li>• Archive captured field digital data in accordance with Design Unit procedure.</li><li>• Archive processed survey data and resulting products in accordance with Design Unit procedure.</li></ul>

The position requires attention to detail, flexibility and the ability to contribute to the provision of client services across the work of the Unit. Also the capacity to respond to a busy work environment and provide other team members with assistance in times of high demand.

The position will apply Council's Enterprise Risk Management Policy and Protocol objectives as they relate to the position.

#### **Health Safety and Environmental System (HSES) Responsibilities**

In accordance with Council's Work Health and Safety Responsibility, Authority and Accountability Protocol all employees are required to perform their duties in accordance with their job category. WHS Risk Assessments, Safe Work Methods Statements, Standard Operating Procedures and site specific requirements and instructions.

For details of WHS Responsibilities, Authority and Accountabilities, staff and candidates are to refer to the following Protocol:

## Position Description

### Associate Surveyor

[WHS Responsibilities, Authority and Accountabilities Protocol](#)

### Compliance Training Requirements

In accordance with Council's legislative requirement under the Work, Health and Safety Regulation 2017 new staff will be provided with access to relevant training, information and instruction in order to safely perform their duties.
